**MEMORANDUM:**

TO: San Francisco Delegation

FROM: Hellan Roth Dowden   
Legislative Advocate

RE: Budget Items - San Francisco Proposals

Below is a summary of items we have requested to add to the Budget. Additional material is also attached. We would appreciate letters of support on any of the items. If there are other items that affect San Francisco and do not appear on the list, please let our office know.

Budget Item 0690 - Office of Emergency Services - San Francisco  
Emergency Command Center (Speier, Marks)

Redirects \$216,000 from the Governor's proposed augmentation to the Office of Emergency Services to lease mobile units to house the San Francisco Emergency Command Center while the new Command Center is being built.

Budget Item 2200.40 - Department of Commerce - Local Assistance -  
Fisherman's Wharf Commercial Seafood Center (Burton)

Requests \$2 million be appropriated from the Unitary Tax Fund for infrastructure and seismic improvements to Pier 45.

Budget Item 3680-30 - Beach Erosion Control - Governor's Budget

Provides \$1 million for a beach erosion control project in San Francisco. Funding source is Proposition 99, Public Resources Account monies. This is part of the Ocean Beach Seawall Project.

Budget Item 3790-001-235 - Department of Parks and Recreation

Request for \$500,000 from the California Wildlife Coastal and Parkland Conservation Fund for acquisition and preservation of wetlands in the area adjacent to the northern boundary of Candlestick State Recreation area and south of the Hunter's Point Shipyard.

Budget Item 4200-001 and 4260-001 - Governor's Budget - Perinatal Substance Abuse Pilot Project

Expands the number of current pilot project sites. With the expansion, we are hopeful that San Francisco will be chosen as a pilot project site.

Budget Item 4260.15 - Office of AIDS - San Francisco facility for those suffering from AIDS related dementia (AIDS Budget Task Force)

Would provide \$300,000 to fund a 12-bed, 24-hour locked residential facility and to fund an additional 15 beds at Laguna Honda for persons with HIV related dementia.

Budget Item 4440-10.65 - Mental Health - Board and Care Provider Rate Increase (Burton, Marks)

Requests an increase in the SB 155 program which funds an additional supplement beyond the SSI/SSP amount for board and care providers who provide services to mentally disordered adults.

Budget Item 6110-196-001 - Family Day Care Homes (Burton)

Appropriates \$200,000 from Child Development carryover funds for child care for low income children in homes rehabilitated with CDBG/HUD funds.

Budget Item 8100-50.41.045 - Office of Criminal Justice Planning Homeless Project - Health Care (Marks)

Adds \$142,000 to the OCJP budget to fund an expansion of the homeless/runaway youth program for the purpose of providing health care to those youths using the shelters in San Francisco.

END OF REPORT

SAN FRANCISCO CONNECTION  
San Francisco Public Library  
May 11, 1990

The Mayor's Office has notified us that there will be no funds in next year's budget for the San Francisco Connection. As a result of this decision, the Library's municipal reference service will cease on June 30, 1990. We deeply regret that we will be unable to continue this increasingly popular and valuable service to city government.

We are writing to inform you that in order to complete all of our research and to return all requested information to you by the end of the fiscal year, the last date that we will be able to accept new questions is June 15, 1990.

It has been our pleasure to work with you on your interesting and diverse questions, and we hope that the information we have provided has helped you to make better-informed decisions.

Should sufficient funds be returned to the Library's budget by the Mayor's Office during the budget process, the Library Administration and the Library Commission have indicated that the reinstatement of this service is their top priority. Until then, we will miss working with you.

Sincerely yours,

*Inez Cohen*      *David Dale*

STATE LEGISLATION COMMITTEE

Minutes: 2/1/91

The meeting of the State Legislation Committee was called to order at 10:10 a.m. by Steve Neuberger of the Mayor's office.

Roll was called and a quorum was established. Present were:

Mary Jane Sylvia - Representing the City Attorney  
Mary Callanan - Treasurer  
Jean Harris - Representing Supervisor Harry Britt  
Joan Lubamersky - Representing the CAO  
Susan Maher - Representing the Controller  
Hellan Roth Dowden - Legislative Advocate

Absent: Assessor  
One vacancy (Board of Supervisors)

The minutes were approved.

Legislative Advocates Report

The Legislative Advocate gave her report which included an update on legislation sponsored by the City and County. Seventeen proposals were submitted for drafting although all may not be introduced as legislation. (see attached)

The Legislative Advocate requested that the legislative coordinators indicate on the Bill Review Worksheet not only a position, but also whether they wish to have the bill agendaized for action by the State Legislation Committee.

New Legislation (See attached)

State Legislation Committee Procedures

The procedures were amended and approved by the Committee. The following change was incorporated into the procedures. (updated procedures attached)

SLC Minutes  
February 1, 1991  
Page Two

The form will be returned to the lobbyist's office at least three weeks following receipt or by the date specified on the legislative worksheet form. In general, legislation cannot be agendized for action unless a form has been completed by the department and it is received 10 days prior to the State Legislation Committee meeting where it will be agendized, if requested.

Unfinished Business (see attached)

There was a brief discussion of the State Budget. The Governor's revenue raising measure, SB 5X (Deddeh), which authorizes a tax on candy and newspapers and raises \$343 million in general fund revenue, and SB 1X (Boatwright), which closes \$700 million in tax loopholes, were approved by the Senate Revenue and Taxation Committee. The bills will be sent to the Board of Supervisors to determine if they wish to take any action or agendize before the State Legislation Committee.

Nothing further to come before the Committee, the meeting was adjourned at 11:00 a.m.

State Legislation Committee Procedures

While there are two methods for the City and County of San Francisco to reach consensus on legislative matters and to take positions on legislation, this paper only addresses the workings of the State Legislation Committee. The alternative route, i.e., the Board of Supervisors addressing legislation with input from departments, referring it to their committees and taking a position by resolution is not discussed.

The State Legislation Committee is established to develop and take positions on legislation with the input of the Board of Supervisors, the Mayor, other elective officers and various departments. By ordinance, the Committee is chaired by the Mayor. In his or her absence, the Mayor designates a vice-chair. Each department assigns a legislative coordinator to act as the department head's liaison with the lobbyist and Mayor's Office on legislative matters. The regular membership of the State Legislation Committee is complemented by the departmental legislative coordinators who attend Committee meetings when there is an item of interest on the agenda or at the department head's request.

The departmental legislative coordinators are responsible for distributing legislation received from the lobbyist within their departments for comment and analysis. The departmental coordinators act as a resource to the Legislation Committee. The departmental legislative coordinators may establish legislative committees within their departments with the approval of the department head, where appropriate.

The lobbyist, at the beginning of each legislative session, distributes relevant legislation to the legislative coordinators and members of the Committee with a form to determine the priority of the legislation for the department. Legislation judged by the department and members of the Committee to be of high priority will be further analyzed as to cost impact and other relevant factors. The Mayor's Office may request departments to review legislation that has interdepartmental importance. The form will be returned to the lobbyists's office at least three weeks following receipt or by the date specified on the legislative Bill Review Work Sheet form. In general, legislation cannot be agendized for action unless a form has been completed by the department and it is received 10 days prior to the State Legislation Committee meeting where it will be agendized, if requested.

Legislation Committee meetings will be held regularly on the first Friday of each month at 10 a.m. during the months the Legislature is in session. Legislation that requires action by the lobbying office will be scheduled for discussion and action by the Committee.

At least one week prior to the meetings, a packet containing the agenda for the meeting, with a list of all bills requiring action, will be received by the Committee members from the lobbying office. Copies of the analyses, as well as the position the department, Mayor's Office, Board of Supervisors or lobbyist is requesting, will be included in the packet. Upon request, copies of the legislative bills will be mailed to the Committee members. The Mayor's Office will ensure that the public is properly notified of the meetings. The lobbying office will prepare minutes of the meetings.

In order to research legislation, to consider possible amendments, and to determine the possible effect on other departments, the position recommended and analyses should be received by the lobbyist no later than ten days prior to the Legislation Committee meeting for consideration at that meeting. All departments, elected officers, members of the Board of Supervisors and the clerk of the Board of Supervisors are encouraged to keep the lobbyist apprised of proposed action they may take on legislation in order to ensure greater communication between the lobbyist and the above-mentioned parties.

The Legislation Committee, through the Office of the Mayor, will develop and present to the lobbyist an annual legislative program prior to the beginning of each legislative year. The program will be for the purpose of enhancing and protecting the policies, procedures and program adopted and administered by the City and County of San Francisco.

The lobbyist is responsible for developing legislation to carry out such programs, for attending meetings where the program is being developed, meeting with individual departments and arranging meetings with other parties affected by the legislative program.

Once a position has been taken by the Committee, the legislative coordinators, in consultation with their respective department heads, are responsible for arranging for witnesses and will assist in a technical capacity in preparing testimony and position papers for the lobbyist. The legislative coordinators and committee members are responsible for providing or assisting with the drafting and analysis of legislative bills and resolutions.

The departments will submit a draft legislative position letter to the lobbyist. Any substantive changes in content will be reviewed by the department head prior to the lobbyist forwarding a final draft to the Mayor. A copy of the position letter will be sent to the department head. The lobbyist will prepare correspondence to the Legislature upon request from the Mayor's Office or Legislation Committee.

It is recognized that bills may be amended and changed, that language may be placed in other bills with little notice. In this event, general policy that has been established on issues by the Committee, the Board of Supervisors, the Mayor's Office and the departments enables the lobbyist to take positions in consultation with the previously-mentioned parties.

The term "legislative program," as used herein, includes all bills, including the State Budget, Concurrent and Joint Resolutions, Assembly and Senate Resolutions, and Constitutional Amendments introduced or proposed for introduction in the State Legislature and other matters relevant thereto, and any matter coming before any Assembly committee, Senate committee, or Joint committee or any subcommittee or interim committee thereof affecting the City and County of San Francisco, its officers, agents, employees, boards, or commissions or any special districts under the jurisdiction of the Mayor or Board of Supervisors.

STATE LEGISLATION COMMITTEE

SAN FRANCISCO  
PUBLIC LIBRARY

Minutes: 3/1/91

The meeting of the State Legislation Committee was called to order at 10:05 a.m. by Steve Neuberger of the Mayor's office. The role was called and the following answered present:

Ted Lakey - Representing the City Attorney  
Mary Callanan - Treasurer  
John Madden - Representing the Controller  
Joan Lubamersky - Representing the CAO  
Del Price - Representing Supervisor Doris Ward  
Supervisor Carol Migden

Absent: Assessor

A quorum was established and the minutes were approved with the following change that was brought to the Committee's attention by Treasurer Mary Callanan. The minutes should have reflected that the motion on AB 72 (Cortese) also included support for the Senate version of this measure.

Steve Neuberger introduced and welcomed the two new appointees to the Committee. Supervisor Doris Ward will serve on the Committee but has appointed Del Price to represent her at the meetings. Supervisor Carol Migden has also been appointed and will serve on the Committee.

Legislative Advocate's Report

The Advocate reported that bills for this two-year session can be introduced up to March 8th. Several of the San Francisco proposals have been deferred or may be amended into already existing bills. A measure by Tom Hannigan on the use of federal funds for social service programs was similar to a San Francisco bill draft. We have decided to co-sponsor the Hannigan measure and use our original bill to extend the sunset date on legislation which provides funding for San Francisco's Fragile Infant Program.

Another measure on unemployment insurance benefits for election workers may be combined with legislation introduced by Senator Don Rogers. Senator Kopp has also requested that the draft legislation on witness fees for public employees in third party suits be placed in SB 109. He is planning to delete its original contents.

New Legislation (see attached)

New Business

Supervisor Carol Migden asked that the Bill Work Sheets be completed and sent to the committee when a bill is agendized. In some cases, she noted background material was not provided prior to the Committee's action. In other cases, where the Bill Work Sheet was included, there was very little relevant information available for the Committee to base its decision. The Committee agreed this would be helpful to members in making their decision to support or oppose legislation.

Adjournment

Nothing further to come before the Committee, the meeting was adjourned at 11:40 a.m. until the next scheduled meeting on April 5, 1991, at 10 a.m.

STATE LEGISLATION COMMITTEE

Minutes: 4/5/91

The meeting of the State Legislation Committee was called to order at 10:15 a.m. by Steve Neuberger of the Mayor's office.

The following committed members were in attendance. (Attached)

All members being present, the minutes were read and approved.

Legislative Advocates Report

The Advocate reminded the departmental coordinators to draft letters for bills that had been approved at the March meeting. A copy of the current list of bills where San Francisco has taken a position was distributed to the members.

A memo containing a list of bills that, if passed and implemented, could bring in additional federal health and welfare dollars was distributed and discussed. The basic premise of the memo was, California has 14% of the Medi-Caid recipients in the country but only receives 10% of the Medi-Caid dollars. Conversely, New York has 10% of the Medi-Caid Recipients and receives 19% of Medi-Caid funds. If California were to equalize revenues with recipients, this would mean an additional \$1.6 billion in new funds.

The latest proposal for program transfers from the state to local government was discussed in light of a meeting called by the League of Cities with the Governor on Thursday and attended by Supervisor Ward and the Legislative Advocate. The Governor, after hearing about the dismal fiscal condition that San Francisco finds itself in, responded that it is a special case since it suffers both as a City and a County.

The Committee was advised that numerous bills were set for the May SLC agenda. We will be asking departments to prioritize legislation, placing bills on a consent calendar where we had taken positions on the same bill last year and determining if a measure would be heard by a policy committee this year before agendaizing.

New Legislation - See attached for positions taken by the Committee.

New Business

Supervisor Migden complimented the departments for the greater detail on the bill work sheets. She asked that both sides of the sheet be completed, particularly the section on who would most likely support or oppose the measure.

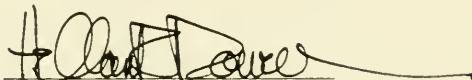

Adjournment

Nothing further to come before the Committee, the meeting was adjourned at 11:55 a.m.

The next meeting of the SLC is scheduled for 10 a.m., Friday, May 3rd.

STATE LEGISLATION COMMITTEE

Minutes: 5/3/91

The meeting of the State Legislation Committee was called to order at 10:10 a.m. by Steve Neuberger of the Mayor's office. The following members were present for the meeting:

Del Price - Representing Supervisor Doris Ward  
Carole Migden - Board of Supervisors  
Mary Jane Sylvia - Representing the City Attorney  
John Madden - Representing the Controller

Absent: Treasurer, Assessor, CAO

The minutes were read and approved with one correction noted: Line 3 should read "The following committee members were in attendance".

Legislative Advocate's Report

The Advocate reported that all of San Francisco's bills are moving through the process. A copy of all the bills in the San Francisco sponsored bills will be sent out with the June mailing.

The Budget was also discussed. The Governor has put \$6.7 billion of new revenue on the table. The budget conference committee has been meeting and has considered nearly a like amount in cuts and transfers to local government. Next week work groups will begin to meet to craft the details on larger issues such as the realignment of state and local government. The taxation proposal will come before the SB 88 Conference Committee for action beginning Monday. Staff has been requested to draft necessary legislation and report back by the 15th of May. Departments were requested to be available to provide background to the Advocate on the effect of various proposals on San Francisco.

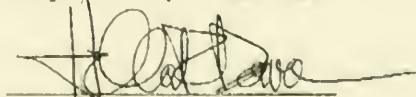

New Legislation (See Attached)

Adjournment

Nothing further to come before the Committee, the meeting adjourned at 11:50 a.m.

The Committee will next meet on Friday, June 7, 1991, at 10:00 a.m.

STATE LEGISLATION COMMITTEE

Minutes: 7/12/91

The meeting of the State Legislation Committee was called to order at 10:10 a.m. by Steve Neuberger representing the Mayor's office. The following members were present for the meeting:

- Elizabeth Byas - Representing Supervisor Doris Ward
- Steve Neuberger - Mayor's Office
- Mary Jane Sylvia - Representing the City Attorney
- John Madden - Representing the Controller
- Mary Callanan - Treasurer
- Paul Herman - Representing Supervisor Carole Migden
- Larry Eppinette - Representing the Assessor

The minutes were read and approved as submitted.

Legislative Advocate's Report

The Advocate updated the Committee on the status of the Budget, which must be signed by July 16th at Midnight. Two issues remained to be resolved: Workers' Compensation Reform and an increase of the income tax on the wealthiest 1/2% of Californians.

The schedule for the remainder of the Legislative session was discussed. All bills must pass out of the policy committee of the second house by July 19th. Those that don't will need a rule waiver to be heard in August. The Legislature will adjourn July 18th or 19th for Summer recess. They will return from August 19 to September 15, when the first year of the two-year session ends. In order for a bill to be enacted before or on January 1, 1991, it must be sent to the Governor by September 15.

The Advocate announced that Carolyn Zarrabi of the Sacramento office has resigned effective July 19th. Steve Neuberger was asked to write a letter of commendation for her excellent service to the committee.

## LEGISLATIVE ADVOCATES REPORT

### I. Budget

Considering the funding crisis we held our own in budget deliberations. This is not to say there weren't cuts, or in the short term, you won't be hearing from local CBOs who have lost funding.

These are some of the losses:

- A. All parks and recreation projects were taken out of the budget. Staff is working on legislation to put some of these projects into a bill that would be passed before the end of session on September 13, 1991.

Projects that may be included are:

- 1. Upgrades to Candlestick State Recreation area, including funding for a boat launch and cultural center.
  - 2. Funding for the Mother's Building at the zoo. Funding would restore murals and mosaic work completed by women artists working for the WPA.
  - 3. Funding for wetlands habitat development and restoration on port lands.
  - 4. Land Purchase for extension of Candlestick State Recreation Area.
- B. Funds for diversion programs for youth were cut from the budget and the option of funding these programs was given back to the counties. Counties can use VLF funds or sales tax for these programs. If the revenues in realignment do not meet expectations, these programs may be cut unless the counties pick up funding.
- C. Homeless Grants (AB 1733 program). Program eligibility was tightened. This will result in fewer AFDC clients being eligible for this special program.

D. Realignment in general will provide additional revenues. However, there will be additional costs. Cost sharing formulas were changed putting a greater burden on the county. If revenues grow at a rate to keep up with program costs, realignment may work. Otherwise it will be a cost shift to the counties.

There was some good news in the budget.

San Francisco was able to maintain funds for waiting lists reduction for drug programs.

Our library will not see its funding cut due to maintenance of effort language we placed in the budget.

Funding for AIDS programs was not cut.

New funds for prenatal care and treatment for substance abusing pregnant women was approved -- \$25 million.

For the first time in eight years, funds for family planning were increased -- \$10 million.

Funding for school-based clinics will be available from the state.

Trial courts in San Francisco received an increase in funding through trial court reform legislation.

Transportation programs were funded by borrowing from next year's monies. Not exactly good news but better than an immediate cut.

While the Budget is balanced with over \$7 billion in new taxes, the people who will really suffer from the budget are not the counties but the poor and those on fixed incomes. Welfare payments were cut and cost-of-living adjustments denied. While the budget package is in many ways innovative in its approach, it will impact most heavily those who depend on the public sector for services.

## II. Issues to be Resolved Prior to the Legislative Recess

I've distributed a list of priority bills and where they are in the process. There are just four weeks left to send these to the Governor. Most of San Francisco's bills are moving through the process but we need to ensure they are signed into law.

The Legislature, when it returns next week, will need to resolve several important issues. Reapportionment is on the agenda but there is some talk of a special session to deal with this.

The Legislature needs to pass clean-up legislation to the realignment measures. There are serious errors in terms of distribution of funds, etc. Some of the health department issues are discussed in the memo distributed. There are other issues related to social services and criminal justice programs.

Also, there are a number of bills relating to water issues and environmental clean-up. Their fate needs to be decided before September 13 when the Legislature recesses until January or these issues will be revisited next year.

Call To Order

The meeting of the State Legislation Committee was called to order at 10:10 a.m. by Steve Neuberger, representing the Mayor's Office. Roll was called and the following members, or their representatives, were present:

Ted Lakey - representing the City Attorney  
Larry Eppennette - representing the Assessor  
Paul Herman - representing Supervisor Carole Migden  
Steve Neuberger - representing the Mayor's Office  
Julie Kendall - representing Supervisor Doris Ward  
Mary Callanan - Treasurer

Members absent -- Controller, Chief Administrative Officer

There were introductions of those attending and the floor was turned over to the Legislative Advocate for her report.

Legislative Advocates Report

The Advocate reported the Governor has over 800 bills on his desk to sign or veto by October 14. None of the San Francisco-sponsored bills have been acted upon. A copy of the document listing legislation followed by San Francisco was distributed to the Committee members. Only two of the bills passed at the end of session have been acted upon by the Governor. AB 101, relating to employment rights for gay men and lesbians, was vetoed and AB 77, relating to family leave, was signed into law.

Many controversial bills were not acted upon before the fall legislative recess and await action in January. These include measures on water policy, seismic safety requirements, rent control and public safety officer disciplinary procedures. Decisions on bond measures were delayed until the next legislative year. The Legislative Advocate reported the worsening condition of the General Fund made it problematic as to the number of bond measures that would appear on the June or November ballot. Bond measures concerning water, parks, and housing programs are still in committee pending legislative action.

The Legislative Advocate announced that once a list of bills signed and vetoed by the Governor was available, each department would receive a copy of the list of bills which they had taken a position on, the outcome, and a copy of the chaptered bills, if any.

Also, department coordinators were asked to set up meetings within their departments to discuss possible legislation for next year, if appropriate. The Advocate will attend the meetings.

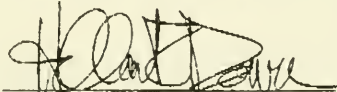

State Net

Department coordinators and members of the Committee were urged to participate in State Net training which is scheduled to be held in San Francisco in conjunction with the league of Cities meeting October 14-16. Departments wishing to link up with State Net were urged to contact the Legislative Office.

Adjournment

Call To Order

After establishing a quorum, the December meeting of the State Legislation Committee was called to order at 10:20 a.m. by Steve Neuberger of the Mayor's Office. The following members, or their representatives, were present:

Steve Neuberger - representing the Mayor's Office  
Susan Maher - representing the Controller's Office  
Dana Van Gorder - representing Supervisor Migden  
Elizabeth Byas - representing Supervisor Ward

Legislative Advocates Report

The Advocate informed the members that the budget outlook in Sacramento continues to be very bleak. There is some possibility that realignment and trial court funding will both be revisited since revenues may not be available to fund the programs. The Advocate reported that implementation of San Francisco-sponsored bills is going forward as planned. Meetings have been held on implementing SB 109 (Kopp)--increased reimbursement for witness fees and AB 1755 (Speier)--pilot project to use small claims court up to \$5,000 without limit on the number of claims filed. A statewide meeting to implement SB 910 (McCorquodale)--Medi-Cal reimbursement for targeted case management, is scheduled for the 13th in Sacramento. There was also a discussion of new legislation for introduction next year. A copy of draft legislation pertaining to needle exchange was circulated for comments.

Minutes: 1/17/92

I. Call To Order

The meeting of the State Legislation Committee was called to order by Barbara Kolesar of the Mayor's Office. Introductions were made and roll was called. In attendance were:

Mary Jane Sylvia - representing the City Attorney  
Barbara Kolesar - representing the Mayor's Office  
Larry Eppinette - representing the Assessor's Office  
John Madden - representing the Controller's Office  
Dana Van Gorder - representing Supervisor Migden  
Mary Callanan - Treasurer

Absent: CAO, Supervisor Ward

II. Approval of Minutes

The minutes were reviewed and adopted.

III. Legislative Advocates Report

The State budget and its effect on San Francisco was discussed by the Legislative Advocate. A written report was distributed to the committee and the legislative coordinators. Those department coordinators not attending will be mailed a copy.

IV. New Legislation

AB 2090 (Katz) -- Water Transfers. The letter of support was reviewed by the Committee. It will be sent by the Advocate as presented.

SB 959 (Presley) -- State Bonds Water Supply. A letter for review was also included in the packet. There are no amendments to the bill at this time. It is possible that at a later date the bill will contain language linking the ability to receive state water bond funds to paying for environmental cleanup. When language is available it will be distributed to the Committee.

AB 2067 (Floyd) -- Police Rights. Position: Oppose. Tom Donohoe and Mike Seybold of the Police Department described the bill. Legislative Advocate reported it was amended in committee on Tuesday and the amended version isn't in print. The amendments removed complaints generated from citizens from the proposed disciplinary system.

V. Proposed San Francisco-Sponsored Legislation

- A. **Clean Needle Exchange Pilot Project** -- Jean Nudelman presented the legislation. It has been sent to Legislative Counsel for drafting into bill form by Speaker Willie Brown and Senator Diane Watson. This legislation will allow San Francisco and other qualifying counties or cities with health departments to establish clean needle exchange programs that are linked to treatment.

It was announced the Health Commission will be discussing needle exchange at their hearing on 21 January and Supervisor Alioto's City Services Committee will be reviewing needle exchange programs at their January 22 meeting.

Committee Action: Support in concept.

- B. **Poison Control Center Funding** -- Jean Nudelman presented the bill for the Health Department. This legislation would provide funding for regional poison centers through a fee on manufacturers and distributors of products most responsible for poisonings in California. The bill is modeled on lead poisoning legislation and was submitted to Legislative Counsel by the author of the lead bill, Assemblymember Connelly.

Committee Action: Support in concept.

- C. **Building Standards -- Timeline Change** -- William Schook of Bureau of Building Inspection and Judy Boyajian of the City Attorney's Office presented this proposal. The proposal will change the timeline for adopting local amendments to the Building Code by allowing the time period to begin from the date the codes are available. Currently the Codes are supposed to be published the first of January every three years. However, they are not available until March which shortens the length of time for local review.

Committee Action: Support in concept.

- D. **AB 204 (Cortese) -- SAN FRANCISCO AMENDMENT** -- Amendment to allow San Francisco to adopt a different standard for seismic upgrade of commercial buildings.

Draft legislation was described by Judy Boyajian of the City Attorney's Office. This proposal is in response

to AB 204 (Cortese) which was signed into law last year. The Cortese bill was an effort to ensure that different seismic standards would not be adopted by each county and small counties would not incur the expense of developing their own standard. This proposal would allow for San Francisco to adopt a different standard than the one proposed by the State Building Standards Commission.

Pat Boscovich of the Structural Engineers of Northern California spoke in opposition. He did seem more amenable if the bill only applied to San Francisco.

Committee Action: Due to the Board of Supervisors' adoption of a resolution concerning the bill proposal, no further action was taken by the Committee.

- E. Guardianship for Non-Relatives -- Legislation in this area will not be pursued this year. The proposal was removed from the agenda for further study.

F. CALDAP Loans

In the Governor's proposed budget, there is \$45M in funds for loans to homeowners and rental property owners to repair damages caused by the Loma Prieta earthquake. Whether these funds can be spent for repairs necessary to meet health and safety requirements is unclear due to new guidelines issued by the State Department of Housing and Community Development. In order to clarify the guidelines, a spot bill was sent to Legislative Counsel by the Assembly Housing Committee staff.

Committee Action: No action pending review of the bill draft.

IV. New Business

Ken Dowlin updated the Committee on issues contained in the proposed state budget that impact the library.

The Legislative Advocate requested the meeting time be changed until 10:30 a.m. The Committee will next meet on Friday, February 7, from 10:30 a.m. - noon.

V. Adjournment

Nothing further to come before the Committee, the meeting was adjourned at 11:20 a.m.

Absent: CAO, Supervisor Ward, Controller

II. Approval of Minutes

The minutes of the February meeting were read and approved.

III. Legislative Advocates Report

The Advocate reported that the hearings on the Budget will be completed by the subcommittees in the Senate by April 9, when the Legislature takes Spring Recess, and mid-March in the Assembly (see attached for a list of hearings on budget items of interest to local government). Usually hearings conclude in mid-May. The Legislature is trying to send the Budget to the Governor early this year to head off the Governor's proposed ballot measure to give him more control over the budget process. Many of the welfare reforms the Governor has requested have already been agreed to with some modifications. Grant cuts may be 10 rather than 25 percent. Legislation to enact the changes are, in many cases, already on the floor of the Senate and Assembly. Most of the big health issues have already been settled. The one outstanding issue is the Governor's proposal for counties to pick up the cost, after sixty days, of hospitalization for Medi-Cal patients. Long term, chronically ill and mentally ill patients would be most impacted.

Bond measures were discussed. On Monday, March 9, the Assembly will once again try to vote out a package of measures. The Senate has already acted. It is most likely that only school bonds will appear on the June ballot. All other measures on parks, water, housing, jail facilities will then be placed on the November ballot.

San Francisco legislation: By way of update, two sponsored bills are set for hearing March 10 -- the Speaker's needle exchange bill, AB 2525, and AB 272 (Hansen) relating to unreinforced masonry buildings. SB 1616 (Marks), the Mission Bay legislation, passed out of Governmental Organization Committee and will next be heard in Appropriations on March 16. SB 1863 (Marks), relating to tax credits for building owners who add child care facilities, was also added to the list of sponsored bills.

The Advocate announced that most likely her contract is being terminated. She thanked all of the legislative coordinators who have done such an excellent job reviewing legislation. Peter Finnegan, the Mayor's choice for her replacement, was in the audience. He was introduced by the Advocate.

#### V. New Legislation

See attached for list of positions taken.

#### VI. New Business

Dana Van Gorder of Supervisor's Migden's office requested that the Speaker's Civil Rights bill be agendized for action next month. He also asked for an update on SB 982 (Davis) legislation to bring criminal penalties when a person with HIV infection does not inform his/her partner of his/her infection when engaging in unprotected sexual activity or sharing a hypodermic needle. The Advocate reported the bill is in Public Safety Committee and San Francisco is already on record in opposition.

Dana Van Gorder also thanked the advocate and stated the Board would pursue the San Francisco lobbyist contract matter further.

#### VII. Adjournment

Nothing further to come before the Committee, the meeting was adjourned at 11:40 a.m.

## STATE LEGISLATION COMMITTEE

Minutes: 4/3/92

I. Call To Order

The meeting was called to order at 10:35 by Margaret Kisliuk of the Mayor's Office. Introductions were made and the roll was taken. Those attending were:

Mary Jane Sylvia - Representing the City Attorney  
Dana Van Gorder -- Representing Supervisor Migden  
Susan Maher -- Representing the Controller  
Richard Sullivan -- Representing the Treasurer  
Larry Eppinette -- Representing the Assessor  
Julie Kendall -- Representing Supervisor Ward  
Margaret Kisliuk -- Representing the Mayor

None were absent.

II. Legislative Advocate's Report

The Advocate informed the group that San Francisco's bill package was making its way successfully through the process. Both needle exchange bills and the Poison Control Center measure are scheduled for hearing next week. A written report will be mailed to the committee and legislative coordinators (see attached).

The budget process is in full swing. On the Assembly side the budget and trailer legislation, i.e., legislation making the necessary statutory changes to implement the budget, were taken up for vote on Thursday on the Assembly floor. The Republicans refused to vote to waive the rules so a vote could be taken on the measures. As a result, on Monday the bills will be up again on the floor with the appropriations struck and the necessary rules followed so the measures will only need a simple majority. If the measures pass the Assembly on Monday, they will go to Senate Committees where the appropriations will be placed in the measures and further hearings will be held.

The Senate subcommittees on the budget will continue to meet through this coming week. Staff work will be completed while the Legislature is on Spring recess, the April 9-19. Upon their return, the budget will be taken up on the Senate floor and hopefully go on to Conference Committee where the differences between the Senate and Assembly versions will be reconciled.

The State Budget picture is looking more grim each day. The revenue shortfall is around \$3 billion in the current year and at least \$3 billion in the coming year, based upon revenue projections. This will seriously impact revenues available to San Francisco from the State.

### III. New Business

Action was taken on a number of bills (the report is attached). One measure, AB 3123 (B. Friedman), was erroneously agendized as the measure that limits the liability of counties on the reporting of workers' compensation insurance coverage. The correct bill number should have been AB 3251 (Frazee). This bill will be agendized in May.

### V. Old Business

None.

### VI. Adjournment

Nothing further to come before the Committee, a motion was made and seconded to adjourn at 11:45 a.m. The next meeting is scheduled for May 1 in Room 228, City Hall.

## STATE LEGISLATION COMMITTEE

Minutes: 5/1/92

BOARD OF SUPERVISORS  
DORIS WARD, PRESIDENT

DEPOSITORY ITEM  
MAY 7 1992SAN FRANCISCO  
PUBLIC LIBRARYI. Call To Order

The meeting was called to order at 10:40 a.m. by Margaret Kisliuk, representing the Mayor's Office. Introductions were made and the roll was taken. The following members or their representatives were present:

Mary Jane Sylvia - Representing the City Attorney  
Dana Van Gorder -- Representing Supervisor Migden  
Susan Maher -- Representing the Controller  
Richard Sullivan -- Representing the Treasurer  
Larry Eppinette -- Representing the Assessor  
Margaret Kisliuk -- Representing the Mayor  
Zoran Basich -- Representing Supervisor Shelley

Absent: CAO

II. Minutes

The minutes were approved as introduced.

III. Legislative Advocate's Report

The Representative reported that San Francisco's legislative package is moving forward. SB 1418 (Watson), the needle exchange legislation, will move to the floor of the Senate. The Brown measure on needle exchange is on the Assembly floor. She reported all measures introduced this year must move out of their house of origin by June 2.

Regarding the Budget, the budget bills will be going to the conference committee as early as the end of next week. The State is facing a \$6 billion shortfall so it is likely this will be an open conference with all items on the table. Conferees have already been named. They are Senators Alquist (D--San Jose), Hill (R--LA/Orange), Hart (D--Santa Barbara) and Assemblymembers Vasconcellos (D--Santa Clara), Wright (R--Ventura), Hannigan (D--Solano).

IV. New Business

New Legislation: Attached is the list of actions taken on measures before the committee. During the discussion of new legislation, Margaret Kisliuk was called to a meeting in the Mayor's Office. Richard Sullivan, representing the Treasurer, took over as chair of the committee.

The following measures were put over by the Committee until the June meeting -- AB 2674 (Speier), AB 2741 (Kelley), SB 1564 (Watson).

VI. Adjournment

Nothing further to come before the Committee, the meeting was adjourned at 11:25 a.m.

The next meeting of the SLC is scheduled for Friday, June 5, at 10:30 a.m. in Room 228, City Hall.

III. Legislative Advocate's Report

San Francisco's bill package is moving through the Legislature. The needle exchange bill, SB 1418 by Senator Watson, passed off the floor of the Senate last night on a vote of 21-14. The same bill has already passed the Assembly. The Mission Bay bill, SB 1616--Marks, is on the Governor's desk and will be signed in the next few days. Bills in their second house must be heard in their first policy committee prior to the summer recess, July 3.

The budget picture is beginning to emerge as legislators return from their primary campaigns. The Local Government Task Force held hearings Thursday on their proposals (see attached) and next week is scheduled for more dog and pony shows before the Budget Committee. The big five, i.e., Governor, Speaker, President Pro-Tem, and Assembly and Senate Minority, are scheduled to meet daily beginning next week. The Conference Committee is scheduled through the weekend in order to try to meet the June 15 constitutional deadline. The \$11 billion shortfall in revenues out of a \$44 billion general fund budget is too big a cut to almost imagine. Most likely schools could receive their statutory allotment under Proposition 98 or a \$2.5 billion cut, trial court funding could be cut by 14-32%, health and social

service programs are facing a \$234 million drop in projected realignment revenues and additional cuts trigger or across-the-board cuts are being proposed for the State and higher education. A likely scenario for local government is a rollback of AB 8 revenues given to local governments following the passage of Proposition 13. The total cut would be around \$1 billion, with these dollars used to pay the general fund obligation to the schools. Most agree that part of the \$11 billion will be rolled over to next year's budget, with the expectation that the economy will improve. This would be preferable to the wholesale dismantling of local and State programs that would be necessary to meet cuts that would amount to 25% of the State budget and pass through to local government.

The State lobbyist then announced this is not only her last meeting, but also the end of her tenure with the City in that she will be taking a new job as Chief of Staff for the Senate Democratic Caucus at the end of June. She thanked everyone for four wonderful years and for their help and cooperation in making the San Francisco legislative operation the font of new and creative ideas in the Capitol.

New Legislation: Positions were taken by the Committee on agendized bills (see attached).

#### VI. Adjournment

I. Call To Order

The meeting of the State Legislation Committee was called to order at 10:20 a.m., August 14, 1992, by Theresa Lee, of the Mayor's Office. Attendance was taken and introductions were made. Answering "present" were:

Dana Van Gorder - Representing Supervisor Migden  
Zoran Basich - Representing Supervisor Shelley  
Mary Jane Sylvia - Representing the City Attorney  
Arnie Sowell, Jr. - Representing the Controller  
Lawrence Eppinette - Representing the Assessor  
Mary Callanan - Treasurer  
David Prowler - Representing the CAO  
Theresa Lee - Representing the Mayor

II. Minutes

The minutes of July 24, 1992, were reviewed and approved.

III. State Budget Update

Arnie Sowell reported on the State budget. He indicated that as the Conference report pending before both houses of the Legislature now stands, San Francisco would lose approximately \$90 million. The bulk of this reduction, \$76 million, would come from the AB 8 (Bailout) property tax shift.

Additionally, Mr. Sowell indicated that the Governor is scheduled to have a press conference at noon today to discuss his new budget plan. Early indications are that the plan changes the reductions to local government, Health, Welfare and Education.

The speculation by insiders is that there could be a budget next week since many legislators would like to see the situation resolved and they are prepared to vote.

IV. Legislative Advocate Report

Copies of Peter Finnegan's report were distributed to the members. Mr. Finnegan was unable to attend the meeting due to legislative business at the Capitol.

V. Legislative Bills

The following bills were discussed and positions taken:

- AB 2919 (Lee) - Revisions to the State PUC regulations to expedite the review and long term planning of areas declared national disaster such as emergency repairs of utility lines.

Position: Watch. (Dana Van Gorder/Mary Jane Sylvia (M/S/C)).

- AB 408 (Epple) - Vehicles: traffic violations. This bill would impose a state-mandated local program by reallocating duties and responsibilities for enforcement and processing of standing and parking violations. The bill would become operative on July 1, 1993.

Position: Oppose, unless amended. (Mary Callanan/Larry Eppinette (M/S/C)).

AB 3167 (Brulte) failed on May 5 in the Assembly Insurance Committee. SB 1625 (Maddy) never passed the Senate Judiciary Committee. These two bills were Worker's Compensation Reform bills.

VI. Procedures for Future Committee Meetings

Future meetings will be coordinated by the Legislative Advocate, Mr. Peter Finnegan. Meetings will continue to be held on the first Friday of each month.

However, due to Labor Day, the Committee will be meeting on Thursday, September 3, 1992.

VII. Other Business

None.

VIII. Adjournment

Nothing further to come before the Committee, the meeting was adjourned until Thursday, September 3, 1992.

I. Call To Order

The meeting of the State Legislation Committee was called to order at 10:30 a.m., December 11, 1992, by Jim Lazarus of the Mayor's Office. Attendance was taken and introductions were made. Answering "present" were:

Members absent: Supervisor Shelley and Supervisor Migden

II. Minutes

The minutes of November 13, 1992, were reviewed and approved (L. Eppinette/M.J. Sylvia-M/S/C).

III. State Legislative Advocate Report

Margaret Kisliuk reported that a preliminary legislative proposal was developed from her meetings with City departments. The primary effort during the new legislative session which reconvenes on January 4, is to preserve existing funds. The City will pursue a Needle Exchange bill again. Some issues that may surface are "hits" on health and welfare programs. The State may re-open the budget to deal with the existing deficit of approximately \$2-3 billion. The projected deficit for FY 1993/94 is estimated at \$6-8 billion.

IV. Review and Preliminary Approval of Proposed Legislative Plan

Ms. Kisliuk reported that legislative efforts will focus on preventing any statewide reductions in revenues such as property tax and sales tax and any adverse legislative or administrative changes to The City.

V. Legislative Bills

Anson Moran, representing Public Utilities Commission - Hetch Hetchy, presented information on AB 15 (Cortese) and SB 13 (Ayala) pertaining to water transfers. Department's recommendation is support, if amended. Recommended amendments would include language to include pre 1914 water rights holding to impair rights to transfer water. **The committee approved the recommendation of support, if amended for AB 15 and SB 13 (R. Sullivan/M.J. Sylvia M/S/C).**

RE: Recent Meeting of State Legislation Committee  
and Other State Legislation Matters

*Minutes*

State Legislation Committee

The State Legislation Committee met on January 12 and took the following actions:

- Approved the State Legislative Plan for the City (copy attached)
- Recommended positions on the following:
  - SUPPORT AB 6 (Burton), which would increase potential prison terms for the crime of carjacking, especially where use of a firearm was involved.

SUPPORT AB 9 (Mountjoy), which would strengthen the requirements that workers' compensation evaluators not be paid to induce favorable reviews; require that workers' comp. law be liberally construed only where it has been determined that an injury actually occurred; requires a "preponderance of evidence" showing for cumulative traumatic injuries; and other provisions that strengthen workers' compensation provisions.

OPPOSE UNLESS AMENDED AB 13 (Friedman) which provides for certain nonsmoking provisions. The bill would preempt local law and provide for Cal-OSHA enforcement of regulations against

smoking, and has other provisions that would make it inconsistent -- and less effective -- than current San Francisco law.

SUPPORT AB 37 (Johnson) which would provide for some county reimbursement for special elections for state or federal officials.

SUPPORT AB 74 (Alpert) which would allow gambling, while at sea, on cruise ships that dock in California ports.

DEFERRED ACTION on AB 30 (Ferguson), regarding extra penalties for crimes committed by persons wearing body armor, and on SB 36 (Kopp) regarding open meetings. Action was deferred until the February SLC meeting at the request of Senator Kopp's representative.

#### Other Matters

The major event this week was the State's release of its plan for the institution of MediCal managed care. Attached is a brief summary of the plan; the Health Department will be providing a more detailed analysis.

## CALIFORNIA'S MEDI-CAL MANAGED CARE PROPOSAL

On January 14, 1993, the California Department of Health Services issued its strategic plan for MediCal managed care. The plan designates 11 counties, including San Francisco -- where, over the next few years, the State plans to institute managed care for MediCal recipients.

The State's proposed plan is summarized below.

### 11 Counties are Selected for Initial Implementation

11 counties are designated to have managed care within the next year. These are: San Francisco; Alameda; Riverside; Contra Costa; Stanislaus; San Bernardino; San Diego; Fresno; Kern; Los Angeles; and Santa Clara.

### Timelines are Short for these Counties

Once the strategic plan is finalized (in early February), counties that choose to participate will have 45 days to submit a letter of intent to the State, stating that they intend to form a consortium for the provision of MediCal managed care.

Within 60 days of the letter of intent from the county, the consortium must submit a letter of intent, with details on consortium members and the services to be provided.

By December 31, 1993, all AFDC MediCal eligibles -- that is, all those who receive MediCal because they qualify for AFDC payments -- must be enrolled in the managed care plan for their outpatient care. The State will not reimburse for services that these persons receive from non-consortium providers in that county. By December 31, 1994, the consortium will be providing all of the care, including hospital care, to these patients.

If the county does not submit the letter of intent to form a consortium, or does not succeed in forming the consortium, the State will develop a "geographic managed care system"; essentially, the State will form the managed care system for that area.

### Who is in the consortia formed for MediCal managed care?

The consortium members must consist of representatives of the following groups: the County Board of Supervisors; non-county hospitals with substantial MediCal services; MediCal beneficiaries; community based agencies that serve a substantial number of Medical patients; physicians with substantial MediCal practices; pharmacies, dentists, home-based service providers and major managed care organizations that have substantial MediCal practices

Note that the county, and its board of supervisors, is just part of the larger consortium. The consortia will not favor counties in the provision of MediCal; counties will receive the same set rate per patient, and patients will have the ability to choose among the various providers.

The State plan will independently advise providers in the county that the county intends to form a consortium. State officials stated that they will resolve disputes where is formed, but did not specify how they would do so. The State did not define "substantial" MediCal practices, but the Director of Health Services noted that if somewhere between ten and twenty percent of a provider's practice is made up of MediCal patients, they would be considered substantial providers.

#### Other Aspects

- o The overall goal is to have half of all MediCal recipients in the county -- not just AFDC eligibles -- enrolled in managed care by the summer of 1995.
- o Providers must show that they are competitive, in terms of the quality of care and access to services as well as the cost of care.
- o The State will "guarantee" that the county will retain 80% of its SB855 disproportionate provider funds for two years, although it is unclear how this will occur.
- o Eventually, the State hopes to fold in all its health programs, including California Children's Services (to the disabled). and the Child Health and Disability Prevention Program (preventive services for healthy poor children) into the MediCal managed care system.
- o The State will not provide funds for the startup of consortiums or the development of the data base needed to initiate such a system.
- o All lawsuits regarding MediCal rates must be settled before managed care rate negotiations begin.
- o If the consortium saves money through the provision of care, it keeps the savings.

#### Comments

The State plan will be very difficult for the counties to implement. The plan does not recognize the fact that the counties are the traditional providers of MediCal, that will serve those patients that do not get adequately served through the consortium. I have listed a few specific comments below.

The managed care proposal is separate from the proposed MediCal cuts in the Governor's FY 1993/94 budget. The Governor's budget includes significant cuts in MediCal services, ranging from eliminating adult dental services or prescription drugs to denial of MediCal for the "medically needy"; those poor enough to qualify MediCal but not receiving AFDC or SSI payments. Counties must plan for how they will adjust to these major shifts in MediCal reimbursement at the same time that they are attempting to prepare for implementation of MediCal managed care.

No startup monies are provided. The State is providing no money for the significant costs of setting up the consortium. By comparison, the State provided \$400,000 for startup of each of the county-run organized health systems that it has established to date, in counties such as Orange, Santa Cruz, San Mateo and Santa Barbara. Further, these counties were not at risk for the first three years. However, the State has established a 40-person unit to assist these eleven counties to institute managed care.

It appears that counties will bear the brunt of the costs. AFDC recipients tend to be young and relatively healthy, and are the least expensive category of MediCal for the provision of health care. Counties would be seeing fewer of these patients, but will continue to treat the bulk of the remaining patients that require more significant treatments, as well as indigents not eligible for MediCal.

Even with inadequate reimbursement rates, counties are dependent on the MediCal program to keep their health care systems running. MediCal patients in turn are dependent on the county facilities, since there are relatively few private providers that will accept MediCal patients, especially for non-hospital care. Counties will have little choice over whether to institute the managed care consortium, since they might lose more MediCal reimbursements if they did not. Clearly, the State anticipates that the counties, and their boards of supervisors, will be the main instigators of the managed care consortium, although, as noted above, no monies are provided for this startup.

The timelines for institution of managed care are unrealistic. The State expects the plans to be fully operational for AFDC patients within less than a year. This is much less time than was needed to establish the State's model managed care programs in Santa Barbara (2-3 years) and in San Mateo Counties (6 years).

While counties will be giving up much of the control over the MediCal program, they will still be obligated to "pick

up the pieces" if the consortia fall apart, and still be provided to serve those who cannot find care elsewhere. In other words, counties, and their boards of supervisors, will continue as the "provider of last resort" but will no longer have control over how services to the indigent may be provided in their areas.

**Final Note**

The State will be holding public hearings, in San Francisco and in other cities, in late January. Written comments are being solicited.

AB1784 (Lempert): Internet Tax Freedom Act: continuation

Recommended Position: Oppose

Extends the current California Internet Tax Freedom Act, which prohibits a California city, county or city and county from imposing a tax in Internet access, from January 1, 2002 to January 1, 2005.

Current Committee: Senate Floor

Hearing Date: not set

**Library**

AB2486 (Washington): Youth Development and Mentoring Programs

Recommended Position: Support

Directs the State Librarian to award grants on a competitive basis to public libraries for the support of the Youth Mentoring and Safe Communities Grant Program. The bill appropriates \$2.5 million for this purpose.

Current Committee: Senate Appropriations

Hearing Date: 8/7/00

**Public Utilities Commission**

1) SB 1973 (Perata): California Public Utilities Commission: water conveyance: fair compensation

Recommended Position: Oppose

Would allow any bona fide transferor to file a petition with the California Public Utilities Commission (CPUC) for an adjudication of whether the determination of "fair compensation" made by an owner of a state, regional or local water conveyance facility is consistent with the CPUC's definition and guidelines. The bill provides the CPUC with the authority to develop appropriate definitions and guidelines as to the criteria and consideration of what is "fair compensation." If the CPUC finds that a local agency's wheeling rate is not consistent with its guidelines, it is authorized to require that local agency to re-determine its wheeling rate. This would give local control over rate setting to the CPUC.

Current Committee: Senate Appropriations

Hearing Date: 8/7/00

2) SB1132 (Costa): Capital facilities fees

Recommended Position: Reconsideration of Previous Position (Oppose unless Amended)

Revises the limitation on capital facilities fees imposed by a public utility agency on school entities and state agencies.

SAN FRANCISCO  
PUBLIC LIBRARY

**I. Review of 2000 Legislative Session**

Chairperson Bert gave a brief overview of the 2000 legislative session.  
(See attached handout).

TRIAL COURTS: it was stated that the trial courts did not receive further relief in the Governor's Proposed Budget and that this issue may be revisited in the May Revision of the Governor's Budget.

COPS: Public hearing will convene tomorrow.

**II. Committee Membership**

Chairperson Bert announced that the State Legislative Committee meetings are held on the first Wednesday of each month. Members are notified via e-mail and mail. Announcements are also posted at the Library.

The Board of Supervisors have not appointed a new member to the Committee. Member Angela Cavillo stated that by the next meeting in March a representative will be appointed to the committee.

**III. State Legislative Plan**

The State Legislative Plan will be available in two weeks. It will be e-mailed to all the members for their review and will be discussed at the next meeting in March. At that meeting, department representatives will be available to answer specific questions.

#### **IV. Update on 2001 Legislative Session and Upcoming Issues**

Deadline for introducing bills is February 23. The Governor has made it clear that his priority focus will be the Energy Crisis and Education. (See attached handout).

The Commission on Aging representative stated that they will be meeting next Thursday to discuss the Commission's priorities. One of their main focus will be introducing Federal Legislation concerning social security.

#### **V. New Business**

AB25 – Assemblymember Carol Migden has introduced a comprehensive domestic partners bill.

Member Peg Stevenson stressed the importance of informing the committee about any budget items.

Bill Lee, City Administrator, announced that there will be a census taken in March and April. The committee needs to take into consideration how reapportionment will fit into the budget.

Joe Spees, Representative from the Board President's Office, discussed a resolution that was introduced at the Board on Monday, February 5. The resolution opposes long term energy contracts that may prohibit the formation of local utility solutions.

#### **V. Adjournment**

Chairperson Bert adjourned the meeting at 3:50

## Highlights of the Governor's Budget 2001-2002

### Education (K-12 and Higher Education)

- \$335M to train teachers in content standards for math and English, and \$15M to train principals in academic standards and leadership skills.
- \$100M to add 30 days of instruction to middle schools.
- \$125M for proposed settlement of school districts claims for mandated special education costs.
- No fee increases for UC, CSU or Community Colleges.

### Energy

- \$1B for various electricity-related programs.

### Elections

- \$40M one-time with local match for touch screen voting pilot project in 3 counties.

### Housing

- \$200M for the Jobs-Housing Balance Program allowing local governments to use funds for any purpose, rather than restricting their use to infrastructure.

### Public Safety

- Continued funding of COPS (\$121.3M) and County Juvenile Crime Prevention Programs (\$121.3M).
- \$120M full year of funding for Prop 36.
- \$7M to local to collect data on racial profiling (intended for counties currently not collecting data).

### Trial Courts

- The Govr's Budget does not reduce counties' share of funding, but counties will continue to push for state support in the May Revise.

### Transportation/Infrastructure

- \$2.3B for local transportation projects including \$430M for Traffic Congestion Relief Fund projects.

### Local Government

- \$250M one-time payment based on 50/50 (per capita/ERAF) formula.

### Health

- \$270M HIV/AIDS Prevention Programs.
- \$114.3M Child Health and Disability Prevention Program to provide health assessments and immunizations to low-income children.

- \$68M for the Children's Services Program for children with serious medical conditions and chronic illnesses.
- \$55.6M to continue the current Homeless Mentally Ill Program.
- \$3M for Public Health Subvention.
- \$20M one-time funding for Community Challenge Grants.

#### Human Services/CalWORKS

- This budget does not include funding for new incentive earnings in 2001-2002. The Governor asserts that counties have earned \$1.2B in incentives through 1999-2000, but have expended only \$46.2M as of October 2000. This means a \$153M loss to counties.
- The Legislative Analyst Office states that proposed budget **underfunds** the estimated childcare needs for former CalWORKS recipients by \$60M.
- \$1.6B for CalWORKS Block Grants, plus \$55.2M for substance abuse services, \$54.1M for mental health services.
- \$843.3M for IHSS including \$22M to cover minimum wage increase (1/01/01 increased by 50 cents to \$5.75, on 1/01/02 will increase another 50 cents to \$6.25).

## Overview of the 2000 California Legislative Session Selected Bills

### Local Government Finance

**ERAF Cap.** SB 1637 (Burton), Vetoed. This bill would have incrementally capped local government agencies' contribution to the Educational Revenue Augmentation Fund (ERAF). The cap would have been phased in over a two-year period, beginning fiscal year 2003-2004.

**One Time Discretionary Local Fiscal Relief.** AB 1396 (Villaraigosa), Chapter 903. This legislation appropriated \$212M of one-time general fund money for local fiscal relief. The measure required \$100M to be allocated to counties, and then among the local agencies in each county, in proportion to their ERAF contribution in 1999-2000. The remaining \$112M was allocated as follows: \$10M among counties in accordance with population, \$100M among counties and cities in accordance with population, and \$2M among independent recreation and park and library special districts on the basis of reduction and transfer amounts for those districts for the 1999-2000 fiscal year.

### Trial Courts

**Trial Court Employees.** SB 2140 (Burton), Chapter 1010. This measure establishes a new personnel system for trial court employees and transfers responsibility for their employment to the respective trial court. Currently, this responsibility lies with the counties.

### Public Safety

**Juvenile Justice and COPS.** AB 1913 (Cardenas), Chapter 353. This legislation appropriated \$242.6M of one-time general fund money for Juvenile Justice and COPS programs. \$121.3 was allocated to the Citizens' Option for Public Safety (COPS) and \$121.3M was allocated to locally delivered juvenile justice prevention and intervention programs.

**Elder Abuse.** AB 1819 (Shelley), Chapter 559. This legislation expands the list of specific subjects specified peace officer training must cover, to include physical abuse and psychological abuse of elders and dependent adults.

### Health

**Uninsured Legal Immigrants.** AB 2415 (Migden), Chapter 944. This legislation continues health coverage for uninsured legal immigrant children, subject to annual budget appropriations

**Public Health Subvention.** SB 269 (Ortiz), Chapter 794. This measure would have allocated \$4.9M to local health departments for communicable disease control and public health surveillance activities. However, the Governor reduce the amount of funding to \$1M statewide.

**Communicable Disease.** SB 1256 (Polanco), Chapter 754. This legislation establishes a testing program for inmates for the presence of the hepatitis C virus and creates a public education and outreach program to raise awareness of hepatitis C aimed at specified high-risk groups.

**Methadone Treatment.** SB 1807 (Vasconcellos), Chapter 815. This measure requires the Department of Alcohol and Drug Programs to establish an office-based opiate treatment program.

### Mental Health

**Homeless Mentally Ill.** AB 2034 (Steinberg), Chapter 518. This legislation continues and expands a demonstration program that provides mental health outreach, case management, and other services to persons with mental illness who are homeless or at-risk of homelessness.

### Transportation

**Transportation Funding.** AB2928 (Torlakson), Chapter 91. This legislation implements the Governor's Transportation Congestion Relief Plan that includes \$4.9B for specified capital projects and \$400M one-time funds for local streets and roads. Capital projects will be funded by a one-time amount of \$1.6B from the 2000 budget and \$678M annually from a portion of the sales tax on gas over the next five years.

**Pedestrian Safety.** AB2522 (Shelley), Chapter 833. This measure establishes the Pedestrian Safety act of 2000 to increase funding for roadway safety improvements for bicycles and pedestrians by increasing motorists fines. The bill also creates an \$8M fund for local grants.

### Sales Tax

**Internet Sales Tax.** AB 2412 (Migden), Vetoed. This legislation would have clarified nexus provisions regarding sales tax in relationship to Internet retailers. A clear definition of nexus is needed to ensure that the appropriate businesses are collecting the appropriated sales and use taxes on Internet purchases.

### Redevelopment

**Redevelopment Plans. San Francisco.** SB 2113 (Burton), Chapter 661. This measure authorizes the Redevelopment Agency of the City and county of San Francisco, subject to the approval of the board of supervisors of that city and county, to incur tax revenue-funded indebtedness exclusively for Low and Moderate Housing Fund activities until January 1, 2014, or until the agency replaces all of the housing units demolished prior to the enactment of the replacement housing obligation, whichever occurs earlier.

## **PUBLIC UTILITIES COMMISSION**

### **Proposed legislation on solar net metering**

The San Francisco Public Utilities Commission is interested in developing large-scale solar facilities on city property. There are potential sites such as University Mound Reservoir, Port facility roofs and parking garages where significantly more power could be generated than could be consumed by city facilities at the site. Under the state's net metering law, wind and solar generators up to 1 MW in size are permitted to export surplus power to the grid. However, because the City of San Francisco obtains its power from the Hetch Hetchy system over PG&E's lines it is not eligible for net metering. Thus, the City is restricted to sizing solar systems to less than the minimum daytime load at a facility (eg. Moscone). This severely limits the size of solar systems in San Francisco. To facilitate the least cost development of solar power, meet the goals of the City's Electricity Resource Plan and minimize the amount of fossil fuel generation used in San Francisco there is a need to overcome the sizing limitations for City-owned solar generation.

Assemblyman Leno is introducing legislation to allow the City to install solar and interconnect/sell directly to PG&E. Leno has asked CCSF to sponsor the bill.

## PUBLIC UTILITIES COMMISSION

### Proposed legislation on capital facilities fees

In 2003, SFPUC cosponsored AB 1051 (Goldberg) with the City of Los Angeles. After bipartisan approval in the Legislature, Governor Davis vetoed AB 1051. Goldberg has agreed to carry the legislation again. SFPUC is requesting CCSF to sponsor this legislation again.

As background, in 1988 Assemblyman Cortese authored AB 1350 which authorized public utilities to impose "capital facilities fees" on educational and public agencies with certain restrictions. These "capital facilities fees" are one time capital costs associated with utility service hook up (new meters, pipeline extensions etc) and they must be negotiated with educational and public agencies.

SFPUC and other utilities around the state have been sued by educational and public agencies. The plaintiffs claim that Cortese's AB 1350 extended to them the right to negotiate the capital portion of their monthly utility rates, not just the connection fees.

AB 1051 is needed to clarify that the term "capital facilities fees" does not mean monthly utility rates and provides that a public agency and educational institution may be charged rates containing a capital component for the operation, maintenance, repair, replacement, or rehabilitation of facilities that benefit a public agency receiving utility services – just like all users of the system.

Absent legislation to clarify this distinction, utilities will be forced to give an arbitrary discount to all educational and public customers and shift the cost of that subsidy to the other nonpublic ratepayers. ***In SF, that means a \$28 million shift to the other customers over 10 years.***

**Contact:** Peter Summerville: 415.274.0660

**Proposed Bill:** Authorizing Exchange of Tidelands Trust Properties on Treasure Island and Yerba Buena Island

**Description of Tidelands Trust Exchange Authorizing Legislation**

The Treasure Island Development Authority (Authority) is currently negotiating with the United States Navy for transfer of former Naval Station Treasure Island (NSTI) to the City and County of San Francisco (City). NSTI consists of Treasure Island and Yerba Buena Island. Upon transfer to the City, lands on Treasure Island will be subject to the Public Trust for Commerce, Navigation, and Fisheries (the Tidelands Trust), while Yerba Buena Island will not be subject to the Tidelands Trust. The Treasure Island Conversion Act of 1997 granted the Authority with the power to administer and control the Trust property, subject to certain duties and responsibilities of the California State Lands Commission. Under certain circumstances, the Tidelands Trust may be removed from Tidelands Trust property in exchange for other property that is useful for Trust purposes, is of equal or greater value, and satisfies certain other legal requirements. The Authority is seeking a Tidelands Trust exchange because, due to the substantial costs and constraints associated with redevelopment of NSTI, a Tidelands Trust exchange is essential to facilitate economically feasible redevelopment of the former military base. The legislation under consideration will authorize lands on Treasure Island to be exchanged for lands on Yerba Buena Island, which are valuable for Trust purposes and which are of equal or greater value.

## TREASURE ISLAND DEVELOPMENT AUTHORITY (TIDA)

### Proposed legislation on ownership of Bay Bridge East Span ramps

**Proposed Legislation:** Amendment to Section 30601.5, Streets & Highways Code

**Contact:** Steven Proud (415) 274-0342

**Topic of proposed bill:** Requires California Transportation Commission and TIDA to include new East Span ramps in the state highway system

**Current law:** Ramps are owned by the U.S. Navy and will be transferred to TIDA as part of base closure process

#### Background:

Two major projects in San Francisco Bay come into tight focus at Treasure Island and Yerba Buena Island. The new East Span of the San Francisco-Oakland Bay Bridge (the "ESSSP"), and the TIDA Redevelopment and Reuse Plan (the "RRP") will be using some of the same land for their construction and development work. In an effort to coordinate planning and construction of these projects the City and Caltrans signed a Memorandum of Understanding (the "MOU") regarding the ramps that will connect Treasure Island and Yerba Buena Island to the ESSSP.

The MOU provides that Caltrans will construct ramps connecting the islands to the ESSSP, with advance City review and comment. Some existing ramps (connecting to current Bay Bridge) can be reconstructed to reach the ESSSP, and under normal circumstances Caltrans would already own these ramps. In this case the existing ramps are owned by the U.S. Navy, and will transferred to the Treasure Island Development Authority as part of the federal base closure. The MOU handles this anomalous ownership with an agreement to support legislation that transfers the ramps to State ownership.

The change of ownership will allow the State to assume full responsibility for construction according to Caltrans' highway standards. It also opens an alternative source of funding (toll funds) that is available for structures that are part of the State highway system. As currently proposed, the legislation requires the California Transportation Commission and the Treasure Island Development Authority to follow through on the MOU commitment and make the ramps part of the toll bridge portion of the state highway system.

In order to meet the MOU requirement, both Caltrans and the City should review and approve this legislation.

Contact: Mary Jane Winslow

Requesting Department: City Attorney's Office

Proposal: Amend Section 17206.1 of the Business and Professions Code to require an additional civil penalty where the act of unfair competition is perpetrated against a minor residing in a substandard building at the time of violation.

Currently, Section 17206.1 of the Business and Professions Code allows an additional civil penalty for each violation of unfair competition that is perpetrated against senior citizens or disabled persons. The Code Enforcement Team files habitability complaints against property owners as an act of unfair competition pursuant to Section 17206. In those lawsuits, the additional penalty is recovered when the act harms an elderly or disabled person.

## DEPARTMENT OF HUMAN SERVICES

### Proposed legislation repealing the 75% cap on state-subsidized childcare slots

California Education Code section 8222.5 caps the allowable percentage of state-subsidized childcare slots in any one childcare facility at 75%. The law was passed in 1980, prior to CalWORKs implementation in order to ensure that vouchers went to the broader community, and that voucher rates were set according to the market, rather than the market being driven by voucher rates. While the law has never been implemented, the California Department of Education on December 10 issued budget language calling for implementation.

DHS argues that the need for the law no longer exists:

- First, CalWORKS has increased the number of childcare vouchers in the City seven-fold since passage of the 75% restriction. Many childcare centers in low-income neighborhoods have over 75% subsidized slots, and parents could lose access to childcare were the rule enforced.
- Second, DHS argues that there would be a heavy administrative burden for monitoring a 75/25% ratio at childcare centers, and that there are no cost savings associated with limiting the number of subsidized slots.
- Finally, DHS argues that having flexibility on the ratio for subsidized to non-subsidized slots has enabled them to better leverage federal funds to increase infant/toddler childcare slots, particularly in low-income communities, which would have to be reduced were the law implemented.

Supporters Include:

CSAC and the County Welfare Directors Association have not yet taken a position.

DHS reports that the California Department of Education has indicated that it will not oppose the repeal of the cap.

The CA Department of Finance may oppose the bill because they believe the cap would produce cost savings.

## DEPARTMENT OF ENVIRONMENT

### **Proposed legislation to make permanent the allowance for Conditionally Exempt Small Quantity Generators (CESQGs) to transport up to 27 gallons of hazardous materials for disposal**

The Department of Environment (DOE) has requested legislation that would formally codify an exemption from the state Health and Safety Code that allows CESQGs that generate up to 27 gallons of hazardous waste per month to transport it for disposal in one trip. Current regulations allow CESQGs to generate up to 27 gallons of hazardous waste per month, but only transport 15 gallons at a time. DOE argues that that the extra trip required for disposal increases the risk of transport, as well as congestion. A state regulation authorizing an exemption from the 15 gallon limit, for up to 27 gallons, has been in place for almost a decade, but has recently sunsetted.

DOE estimates that roughly 500 San Francisco businesses make use of the exemption to transport 15-27 gallons of hazardous waste at a time. The proposed law would permanently authorize transport of up to 27 gallons. Sonoma County is supportive of the effort. There are no known opponents at this time.

### **Public Comment**

Public Comment will be taken on each item.

### **Document Review**

Documents that may have been provided to members of the State Legislation Committee in connection with the items on the agenda include proposed state legislation, consultant reports, correspondence and reports from City departments, and public correspondence. These may be

inspected by contacting Amiee Albertson, Fiscal and Policy Analyst, Mayor's Office of Public Policy and Finance at: 415-554-5965.

#### **Health Considerations**

In order to assist the City's efforts to accommodate persons with severe allergies, environmental illnesses, multiple chemical sensitivity or related disabilities, attendees at public meetings are reminded that other attendees may be sensitive to various chemical-based products. Please help the City accommodate these individuals.

Background for State Legislation Committee  
April 13, 2004

**AB 547 (Berg) – Support**

This bill authorizes local governments to enact a clean needle and syringe exchange programs. Current law authorizes cities and counties to establish and operate needle exchange programs only after the declaration of a local emergency. The declaration must then be renewed every two weeks by the Board of Supervisors or the City Council.

**SB 167 (Speier) – Support**

This bill would exempt hospitals from the 2008 deadline and the 2013 optional deadline extension on earthquake standards if they commit to comply 10 years sooner with safer standards now required under the law by 2030. The bill author argues that moving up the 2030 deadline by 10 years will make hospitals safer sooner for the public and will save hospitals money, allowing them to combine efforts for meeting the current 2008 and 2030 requirements at the same time. Many hospitals cannot get enough money loaned to them to comply with current deadlines.

**SB 38 (Alquist) – Support**

This bill expands the State Healthy Families Program coverage to children in families with incomes up to 300% of the federal poverty level rather than the current 250% of the federal poverty level. Currently San Francisco children with family incomes between 250 and 300% of the federal poverty level are covered through San Francisco's Healthy Kids & Young Adults program. SB 38 would relieve the City of the cost of providing coverage to about 12,000 children presently enrolled as Healthy Kids. The resulting savings of approximately \$1.4 million could be reallocated to provide coverage to others in the City who remain uninsured.

**AB 363 (Chu) – Support**

This is a CWDA (County Welfare Director's Assn) sponsored bill that would help counties as we implement the Child Welfare System Improvement and Accountability Act (better known as Child Welfare Re-design). AB 363 would:

- Create the Child Welfare Services Outcomes and Accountability Incentive Fund so that counties will have a means to receive funding to implement their System Improvement Plans;
- Create a feedback mechanism between the Legislature and the California Department of Social Services (CDSS) to provide information regarding the counties' recommendations in their self-assessments and system improvement plans.

**SB 1018 (Sitimian) and AB 1605 (Wolk) - the Elder and Dependent Financial Abuse Reporting Act of 2005 – Support**

These are identical bills, sponsored by CWDA that would add employees of certain financial institutions - banks, credit unions, and savings and loans - as mandated reporters of financial abuse perpetrated against elder and dependent adults. These bills

also apply penalties for failure to report and extend immunity from civil liability for making such reports, consistent with other mandated reporters in current law. Eighteen other states have passed similar laws, often over the objections of their state bank associations. Reporting by banks has been shown to be very effective in increasing reports of financial abuse and preventing additional losses to victims.

Timely intervention is critical to preventing financial loss for seniors and dependent adults who often live on fixed, limited incomes, and financial institutions often are in the best position to witness this kind of abuse when it occurs. Only 1 in 100 cases of financial abuse are reported in California. Many seniors and dependent adults are too embarrassed, unaware or unwilling to disclose financial abuse to authorities. In SF, 9% of all Adult Protective Service allegations are related to financial abuse and neglect, a statistic that may not reflect the true extent of the problem. Seniors are the fastest growing age group in SF and will comprise an increasingly larger share of SF's population. Many of them are also homeowners, living in isolation and vulnerable to potential fraudulent activities, so passage of one of these bills would protect SF seniors, and allow them to keep their assets, avoiding premature institutionalization into nursing homes.

#### **AB 824 (Chu) – Support**

This bill would extend the current age limit of 21 to 24 for the Transitional Housing Placement Program for Emancipated Foster/Probation Youth (also known as THP+). THP+ is the only state-funded program to provide essential housing and support services for emancipated and probation youth. The goal of the program is to help youth achieve independence and have the opportunity to move towards a stable adulthood. In California, an estimated 60% of emancipating youth become homeless, and in San Francisco, an estimated 45% of our youth have no stable housing when they leave foster care. San Francisco is one of three counties in California to have a THP+ program providing 31 units of housing for emancipated youth. The biggest challenge in stabilizing the THP+ participants has been the age limit - THP+ is a twenty-four month housing program with wrap-around services. Several of our youth did not enter the program until they were 19 1/2 or 20, and thus could not benefit from the full 24 months of housing/services.

#### **AB 1282 (Mullin) – Oppose**

This bill would eliminate the 50/50 split between San Francisco and San Mateo counties on the sale of jet fuel at SFO, and allow San Mateo to keep all revenues.

#### **AB 236 (Bermudez) – Oppose**

This bill would cap the sales tax on sale of jet fuel at 63 cents per gallon until 2010. The bill is sponsored by the Air Transport Association. The Board of Equalization estimates an \$86 mil revenue loss to the state, a \$33 mil revenue loss to local jurisdictions and another \$11 mil loss to special districts.

### **AB 769 (Horton) – Support**

This bill would authorize an enforcement agency to require an owner of residential rental property to complete 15 hours of educational courses if he or she fails to repair a building condition that is in violation of the housing or building standard.

### **SB 894(Dunn) – Support**

This bill would allow the court to issue an injunction where a property owner has abated a nuisance to prevent a recurrence or future occurrence of that activity. This amendment fills a statutory gap and serves as a particularly useful tool in the cases involving properties that are vacant or owner occupied. Compliance by the property owner is motivated by the lawsuit filed by the City and can be short-lived. Prospective injunctions ensure that the property owners will maintain those properties as required by law for a discrete period of time. An injunction usually is in place for three to five years. The ability of the City Attorney's Office to seek prospective injunctions reduces the necessity to file multiple lawsuits to address the same or similar nuisances and encourages property owners to act responsibly or face very immediate contempt penalties.

### **SB 6 (Ducheny) – Support**

This bill would allow Enterprise Zones created after 1990 to apply for a 5-year extension. San Francisco currently has one enterprise zone, located in the Mission District.
